

Water Bingo

Teach a friend or family member about ways to save water!	Make a water saving plan or goal with your family!	Use a reusable water bottle or cup to reduce the number of dishes to wash	Spot a water plant	Write a story about a water animal!
Read a book about a water animal or water ecosystem	Draw your favorite water animal or plant!	Check faucets around your home for dripping	Turn off the tap while brushing your teeth	Teach a friend or family member about the different water features!
Take a shower in less than five minutes!	Turn off the tap while scrubbing your hands	Free space (Drink some water!)	Research low water plants or native plants in your area	Visit a lake or reservoir
Visit a stream or river	Explain how the water cycle works to a friend or family member	Spot a water bug or insect	Pick up trash near a local pond or stream	Instead of dumping clean water down the drain, use it to water a plant
Turn off the tap while scrubbing dishes	Spot a water animal	Visit a pond or wetland	Write a song or poem about water!	Shorten your shower by two minutes

Play bingo: save this file or hang this on your fridge, and color in the squares as you do them!
